Assignment code 1 (day 2)

Question – Enhanced Loan Eligibility system

Code –

```
age=int(input("Enter your age: "))
salary=int(input("Enter your salary: "))
employment_type=input("Enter your employment type (salaried/self-
employed/other): ")
if age>=21 and age<=60 and salary >= 25000 and employment_type in
["salaried", "self-employed"]:
    if age >=21 and age <= 30 and salary < 30000:
        print("Needs guarantor")
    elif age > 55 and employment_type == "self-employed":
        print("High risk, senior review needed")
    else:
        print("Approved")
else:
    print("Not eligible for loan")
```

```

age=int(input("Enter your age: "))
salary=int(input("Enter your salary: "))
employment_type=input("Enter your employment type (salaried/self-employed/other): ")
if age>=21 and age<=60 and salary >= 25000 and employment_type in ["salaried",
"self-employed"]:
    if age >=21 and age <= 30 and salary < 30000:
        print("Needs guarantor")
    elif age > 55 and employment_type == "self-employed":
        print("High risk, senior review needed")
    else:
        print("Approved")
else:
    print("Not eligible for loan")

```
